

Vismay Rao BN

AI/ML Intern

About Me

I am a web developer and AI/ML intern with hands-on experience in building responsive web applications and working on machine learning projects. Along with my technical background, I enjoy photography and Canva-based designing, which helps me create clean, visually appealing, and user-friendly interfaces. I like combining logic with creativity, learning new things continuously, and building solutions that are practical and impactful in the real world.

Work Experience

Web Development & AI/ML Intern

Get Skilled

Internship | Jun 2025 – Dec 2025

- Designed and developed responsive web pages using HTML, CSS, JavaScript, and modern UI practices.
- Assisted in building frontend components and integrating them with backend logic.
- Worked on AI/ML projects, including data preprocessing, model training, and evaluation.
- Implemented Python-based machine learning models using libraries such as NumPy, Pandas, and Scikit-learn.
- Gained practical exposure to real-world datasets, feature engineering, and performance tuning.
- Collaborated with mentors and team members to debug, test, and improve application workflows.

PROJECTS

- Smart Bandage with Accident Prevention Glasses (Prize-Winning):** Developed an IoT-based healthcare system with real-time wound monitoring integrated with accident prevention smart glasses.
- Sign Language Recognition System:** Built a machine learning-based system to recognize and interpret hand gestures for improved communication accessibility.
- Paytm Clone:** Created a responsive frontend clone of the Paytm platform focusing on UI accuracy and user experience.
- Netflix Clone:** Designed a responsive Netflix homepage clone with dynamic layout and modern frontend styling.
- Meesho Clone:** Developed a responsive e-commerce frontend inspired by Meesho with structured product listings and clean UI design.
